

Prior Informed Consent

The UNDP Accelerator Lab maps the solutions and/or innovations for/from grassroots, design experiments to test ideas and explore opportunities for policy and institutional change. The UNDP Accelerator Labs try to encourage the exchange of knowledge, solutions and ideas among the innovators and the concerned stakeholders including policy makers within the country but also across the globe to support achieving the Sustainable Development Goals (SDGs).

It is necessary for the UNDP Accelerator Lab to obtain written consent (or video authorization) to document your contact details and the solution in a global Solution Platform and potentially share these with interested third party/ies, including other innovators and communities. Signing this form will allow the UNDP Accelerator Lab to document and share the solution and rightfully attribute the solution to you, the solution holder.

No.	Description																														
About you																															
1	<p>Does UNDP have consent to document your contact details and the solution for our global Solution Mapping Platform?</p> <p>Link: https://undphqexoacclabsapp01.azurewebsites.net</p> <p>Please chose:</p> <p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>

About your solution	
6	<p>What is the solution? Please provide a brief explanation.</p> <p>Title: Cellulose Extract for a Greener Saudi</p> <p>Date: 01/01/2021</p> <p>Content: Utilization of date palm wastes for the fabrication of cellulose-based hydrogels, where hydrogels are polymeric materials that can retain or capture large amounts of water that can achieve about 1000% of their dry weight or more. Across the world, lots of efforts have been done to fabricate hydrogels from biomaterials that are biodegradable and/or biocompatible, either from synthetic materials or natural materials. Herein, we tried a new, eco-friendly, easy approach to fabricating natural-based hydrogels, with aim of promoting irrigation efficiency, especially with the coming Saudi initiatives of Green Saudi Arabia and Green Medial East. Also, we aimed to fabricate this water-loving system (i.e., hydrogel) from locally and massive available agricultural wastes which is date palm rachis.</p>
7	<p>Do you hold a copyright patent or trademark connected to this solution issued by relevant authorities in the country?</p> <ul style="list-style-type: none"> <input type="radio"/> Yes <input checked="" type="radio"/> No <input type="radio"/> Unknown <p>If YES, please state:</p> <ul style="list-style-type: none"> ▪ Type of IP: ▪ Date of issuance: ▪ Issuing Authority: <p>If NO: is this solution subject to licenses of creative commons?</p> <ul style="list-style-type: none"> <input type="radio"/> Yes <input checked="" type="radio"/> No <input type="radio"/> Unknown <p>Please confirm that to the best of your knowledge this solution does not infringe any other intellectual property rights of third parties.</p> <ul style="list-style-type: none"> <input checked="" type="radio"/> Confirm <input type="radio"/> Do not confirm

8	<p>Do we have your consent to take photographs, videos, and other audio-visual formats as appropriate to document the solution?</p> <p>Please chose:</p> <p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
Acknowledgment	
9	<p>Please confirm that you understand that documenting and sharing your contact details and the solution does not indicate or imply any financial commitments or offers from UNDP, nor is UNDP liable for any financial agreements and/or obligations you may enter yourself with relevant third party/ies.
